

installation guide for plecs

1. Go to the Plexim homepage: [Download | Plexim](#)
2. Download [PLECS Standalone Packages | Plexim](#) and the [RT Box Software | Plexim](#) Software Package
3. Install PLECS Standalone
4. Open PLECS: If you open it the first-time following window will show up:

Figure 1: If you open Plecs the first time, this window will appear.

5. Open license manager and click on “Request license”, select Student license and select Checkbox PLECS Coder.

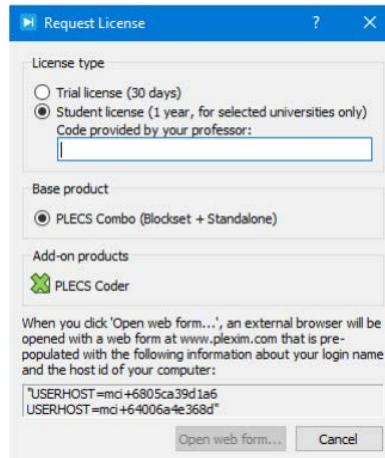

Figure 2: Boxes you should check!

8. Enter the license code – “**7gw-stmgvJrs**” and click on “open web form” | use your student e-mail.
6. 9. You should receive an email from plexim with a file called “license.lic” attached. Follow the steps explained in the email
7. 10. Install the RT Box Target Support Package. The most recent Information is provided on the Homepage via [Installing RT Box Target Support Package | Plexim](#)
